

Stuyvesant Student Opportunity Bulletin #22L

February 7, 2025

Please note that in this “**Long**” version of the Student Opportunity Bulletin, **all** opportunities in each category are included.

For the list of only the *New* and *Deadline Approaching* opportunities in each category, you may click & open the “**Short**” version of the Student Opportunity document you received.

Updated: The TomorrowToday Experience Directory: A new interactive resource for students and parents!

TomorrowToday is a digital companion to the weekly Student Opportunities Bulletin empowers students to more easily explore, find, and engage with the many diverse opportunities that are available in a more interactive way.

How Should Students Use It?

Students can access the directory via our weekly digital bulletin or at the link [here](#). Simply browse through the curated listings, find experiences that interest you, and take the next steps to participate on the provider's website. The user-friendly interface makes it easy to filter and search for specific opportunities.

We encourage all students to make the most of TomorrowToday's Experience Directory. Dive in, explore, and discover your career journey: <https://stuyvesant.tomorrowtodayapp.com/>

13. SCHOLARSHIPS

This weekly bulletin informs students, parents, and staff about internships, academic programs, jobs, leadership & community service initiatives, and other student opportunities in a variety of fields. Please carefully note deadlines, age requirements, and other pre-requisites for participation.

For ease of use, these newsletters are organized by different categories, such as Academic Programs, Business Internships & Jobs, STEM Opportunities, Community Service, and so on.

These various opportunities utilize different formats. Some are in-person, some remote, and some will involve a hybrid arrangement. Check each program for their specific format and schedule. Students should consider applying to any that match their interests and talents.

Please note that in order to save space, many sections contain links to general lists of related opportunities- such as for Stem programs, Community Service, College Prep free programs, and more - be sure to click on any links that interest you.

Working Papers: Some summer jobs, internships, and programs do require students 14-17 years old to obtain working papers (official name: employment certificates). The necessary application form may be obtained from Mr. Myles Sebastien (who can explain the procedure and answer any questions) in the Stuyvesant Guidance Office

(Room 236) between 8:00am – 3:30pm. Check the BUSINESS category for a link with more information.

And here are several programs of note in this week's bulletin from various sections; some have rapidly-approaching deadlines:

ACADEMICS: The **NYU/Tandon School of Engineering** offers a variety of summer STEM programs for high school students; some are free (such as the ARISE program) and some charge tuition; some financial aid may be available to eligible students. And many other colleges offer summer “**pre-college**” academic courses for high schoolers –check the **link** in this section for a long list of options. Again, some do offer substantial financial aid.

LEADERSHIP/GOVERNMENT:

Service in Schools offers a five-day Institute on public policy & community service to current 10th, 11th, and 12th graders – it culminates with a Youth Summit presented to elementary students in NYC.

The **Student Historian Internship Program** at the New York Historical Society is a five-week free summer program for current 9th, 10th, and 11th grade students.

MUSEUMS/ART:

The **Metropolitan Museum of Art** has opened applications for their summer internship program – interested sophomores & juniors may apply.

PARKS/NATURE: The **Wave Hill Public Garden & Cultural Center** in Riverdale welcomes applicants (16 and older) for their summer internship programs.

City Growers Spring Green Ambassadors is a paid after-school apprenticeship for students who live in Brooklyn and are interested in sustainability, gardening, and the environment – it runs from April – June.

STEM: The **Urban Arts Game Design Lab** is a free spring break program for 9th, 10th, and 11th grade students interested in video game design.

SARC is a free Columbia University-sponsored series of immersive research workshops in March and April – participants can receive support in researching any topic of their choice. This is open to all grades, and the “early bird” application deadline is **February 20th**.

GSTEM is an NYU summer science research program focused on female & other juniors traditionally under-represented in STEM fields ; substantial financial aid is available for eligible students.

And the free **Simons-NYU Science Explorations** three-week summer program also focuses on students (from all grades) from under-represented groups.

WRITING/MUSIC/VIDEO: **New York City Center’s Externship Program** is a free spring break program in Manhattan focused on Entertainment Production & Technology; all students may apply.

The **Bloomingdale School of Music** on Manhattan’s Upper West Side offers free 2025-2026 music programs for students from lower-income backgrounds.

The **NYU Urban Journalism Workshop** is a free one-week July program for students 16 and older.

And the free **Summer Arts Institute** summer program at Sinatra High School in Queens offers training in a variety of music, dance, visual arts, and drama –related areas It’s open to 9th, 10th, and 11th graders – the application deadline is **February 26th**.

Questions, suggestions, and information about other opportunities are always welcome and appreciated, and may be sent to Internship/Opportunity Coordinator Harvey Blumm at: hblumm@stuy.edu - we will share your helpful information with the Stuy community!

MIT Lincoln Laboratory (LL) Beaver Works Summer Institute Spring Class and Summer Program

“This is a dual program – spring term self-paced online classes, followed by an in-person or virtual summer program at MIT, which is selective. The four-week summer program teaches students programming & engineering skills through project-based, workshop-style courses. Students must complete self-paced online courses over the spring semester if they wish to be considered for the summer program. This summer, we’re offering **14 exciting, hands-on, project-based programs** designed to inspire and challenge high school students with a passion for STEM. From autonomous robotics to cybersecurity, and space exploration to machine learning, there’s something for everyone to discover. Courses: Autonomous Air Vehicle Racing (UAV)*, Autonomous RACECAR Grand Prix*, Autonomous Cognitive Assistant:

Cog Works, Basic of ASICs, Cyber Operations, Embedded Security and Hardware Hacking, E-Textile and Wearable Technology*, GitHub, Medlytics, Microelectronics and Hardware Development, Quantum Software, Python, Remote Sensing for Disaster Response, Serious Games Design and Development with AI, Underwater Autonomous Vehicle Challenge (AUV)*, Unmanned Air System - Synthetic Aperture Radar* (** means the will be in-person in the summer; we do not provide housing*)

Our programs provide students with the opportunity to collaborate with peers and instructors from around the world, solve real-world problems using cutting-edge technologies, and develop skills and experiences that prepare them for their future in STEM.

Eligible: Preference to current juniors, but all students may apply & may be accepted

Dates: February 3 - June 20 (Spring Online Courses) & July 7 – August 3 (Summer Program)

Location: Spring Courses are virtual; the summer program is Virtual and/or In-Person at MIT

STEM Opportunities:

New: Summit STEM Fellowship

“The fellowship selects for self-motivated students who are passionate about both STEM and making a meaningful impact in the world. Through Summit STEM, students receive mentorship from accomplished young professionals who share actionable guidance to help shape their high school journeys. The core program consists of the following series: Fireside Chats, STEM Shorts, Skill Builders, and Career Panels. Each series introduces students to various academic disciplines, teaches essential life skills, and provides tools for success in high school and beyond.

Programming is designed to be as actionable as possible to help students directly apply the lessons they learn to their high school careers. The fellowship is a flexible 10-15 hours/week commitment, and students may participate alongside other summer activities.”

Deadline Approaching: NovaEdge Diversity in Engineering Academy

“NovaEdge Diversity in Engineering is a one-week, on campus program to introduce a diverse population of students from different ethnic and social backgrounds to the traditional fields of engineering, including Chemical, Civil and Environmental, Computer and Electrical, and Mechanical Engineering. Students also will be introduced to unique aspects of Villanova’s College of Engineering, which include international service learning, Sustainable Engineering and Engineering Entrepreneurship. Lectures and hands-on laboratory experiments are taught by Villanova engineering faculty, and daily guest speakers will bridge academia and industry.”

Eligible: Rising sophomores, juniors, and seniors

Dates: July 12 – July 19

Locations: Villanova University (800 E. Lancaster Ave. Villanova, PA 19085)

Cost: \$775 (includes room and board)

Event Approaching: Math Gym at the Museum of Mathematics

“Students will spend an hour independently working on engaging and beautiful math problems, hand-selected by MoMath’s advisory council of math PhDs. Choose whichever challenges you like and explore them with the guidance and mentorship of an expert mathematician. If you love math and want to experience the incredible joy of mathematical discovery, you won’t want to miss this enjoyable monthly program.”

Eligible: All students

Dates: **February 19**, March 19, and once a month on a Wednesdays in subsequent months (4 – 5 pm or 7 – 8 pm)

Location: Virtual

Cost: Free

Application Deadline: **Rolling Basis**

NYU Tandon School of Engineering Summer Pre-College Programs

NYU Tandon offers a wide variety of STEM-focused programs for high school students. The competitive free programs for local students provide unique opportunities for in-depth STEM studies and range from Applied Research Innovations in Science and Engineering (ARISE), Computer Science for Cyber Security (CS4CS), Innovation, Entrepreneurship and the Science of Smart Cities (ieSoSc). The fee-based programs are Design, Invent & Innovate (DII), Immersive Summer Interacting with Technology and Engineering (I-SITE), Machine Learning (ML), Computer Engineering for Good (CE4G), Programs in Digital Design and Media (UX and XR), and Automation, Robotics, Coding (SPARC).

Eligible: All students

Dates: Various

Location: MetroTech Center in Brooklyn

Application Deadline: **February 21** (ARISE), April 15 (CS4CS & ieSoSC), April 21 (ML & SPARC), May 16 (DII, CE4G, I-SITE, and UX and XR)

Costs: Various; Some free programs

Girls Who Code Summer Programs

“Girls Who Code will offer two free programs this summer: the virtual Summer Immersion Program and Pathways. The **Summer Immersion Program** is a two-week experience to learn game design in live virtual classrooms while making friends and gaining practical college and career advice from industry leaders.

Pathways is a six-week opportunity to explore big topics in tech independently. Learn to code through hands-on real-world projects in game design, cybersecurity, data science, web development, and artificial intelligence, make meaningful friendships as you become part of our lifelong alumni network, and learn about tech careers by connecting with engineers and participating in skill-building workshops. No computer science experience is required.”

Eligible: All students who identify as a woman or non-binary

Dates: Summer 2025

Location: Virtual

Cost: Free

Application Deadline: **February 26** (Priority Deadline), **April 11** (Final Deadline)

Girls Who Code Summer Programs

“Girls Who Code offers two summer programs: the Summer Immersion Program and the Self-Paced Program. The Summer Immersion Program (SIP) is a 2-week introductory computer science course during which participants learn web

development with HTML, CSS, and JavaScript while getting an inside look into the tech industry through incredible company partners. The Self-Paced Program is a 6-week flexible computer science course in which participants can choose to earn beginner-level badges in HTML, CSS, and JavaScript for web development or an intermediate-level badge in Python for cybersecurity.”

Eligible: All students 14 and older who identify as girls or non-binary (Seniors can only apply to the Pathways program)

Dates: Various

Location: Virtual

Cost: Free (grants and tech support available)

Application Deadline: **February 26** (early) & **April 11** (regular)

Engineering Summer Academy at Penn

“The Engineering Summer Academy at Penn (ESAP) welcomes highly motivated and talented students to explore Engineering at the college level. The Academy’s intensive, three-week programs combine sophisticated theory with hands-on practical experience in cutting-edge technologies. Work with leading faculty while earning college credit, live on Penn’s historic campus, and connect with new friends from around the world. Courses are offered in Artificial Intelligence, Biotechnology, Complex Networks, Computer Graphics, Computer Science, Nanotechnology, and Robotics.”

Eligible: Rising sophomores, juniors, and seniors who are 15 (by program’s start date)

Dates: July 6 - July 26

Location: University of Pennsylvania, Philadelphia

Application Deadline: **March 1**

Cost: \$9,000; financial aid available

Columbia University Engineering the Next Generation (ENG)

“For six weeks, students work with Columbia Engineering researchers and participate in programming to develop their academic and professional skills. Students gain practical research experience, collaborate with research faculty, staff, and students, practice new skills, and take part in multi-level mentorship. Program components include experience in working on genuine engineering research projects, research skills and college prep workshops, science communications workshops, and additional supplemental seminars and opportunities. Students are provided with a stipend to support them over the summer.”

Eligible: Current juniors (July 7 – August 14, 2025)

Dates: Summer 2025

Location: Columbia University (116th and Broadway, Manhattan)

Cost: Free

Application Deadline: **March 2** (CS3 MyStreetscape track)

The Yale Summer Program in Astrophysics (YSPA)

“YSPA is a research program in which students spend two weeks virtually learning skills in astronomy and programming. Then, they are invited to the Yale campus for

four weeks to develop a complex astrophysics modeling project. Students gain skills in physics, math, astronomy, programming, data visualization, and data science.

Members of underrepresented groups in STEM are encouraged to apply.”

Eligible: Current juniors

Dates: June 30 – July 11 (online) & July 13 – August 10 (residential)

Location: Hybrid (two weeks virtual & four weeks residential on the Yale campus)

Cost: \$8,000 (limited need-based financial aid available)

Program in Algorithmic and Combinatorial Thinking (PACT)

“This summer program is an intensive program (residential and online) for high school students that introduces them to topics in Theoretical Computer Science. Various topics in Discrete Mathematics and Algorithms will be introduced. There will be guest lectures on various other topics in Computer Science such as Computational Geometry, Cryptography, Machine Learning etc.

Questions: Please send email to summertcs@gmail.com

Eligible: Rising sophomores, juniors, and seniors

Dates: June 25 – July 25

Location: Virtual and in-person (University of Pennsylvania) options available

Cost: \$1,975 (virtual), in-person tuition \$4,100 & housing costs are additional (some financial aid available)

Application Deadline: **March 16**

MIT Beaver Works Spring ‘Yes You Can’ Virtual Classes

“The BWSI Saturday Program is an educational initiative to engage high school students in STEM through immersive, project-based learning experiences. Held on Saturdays in the Spring and Fall, these programs allow students to explore cutting-edge technologies (Robotics, Programming, AI) and develop critical skills that prepare them for advanced STEM studies and careers.

Program Highlights:

- The program is **completely free** and is perfect for students who are curious and excited to dive into robotics, engineering, and programming!
- Robotics, coding, and artificial intelligence courses
- Engineering challenges and design competitions
- Guest speakers and networking opportunities with STEM professionals
- Exposure to advanced technologies such as drones, autonomous vehicles, and cybersecurity

Eligible: Current freshmen and sophomores

Dates: March 8 – April 26 (Saturdays)

Location: Virtual

Deadline Approaching: Icahn School of Medicine High School Summer Program

"At the Icahn Center for Excellence in Youth Education (CEYE), we help more than 200 students each year from grades seven through college prepare for careers in science and health care. As a unit of Mount Sinai Health System's Office for Diversity and Inclusion, CEYE operates a range of school-year and summer programs geared to youth belonging to groups that are low-income or underrepresented in medicine."

1 - Introduction to Bioinformatics Course is a course designed to teach high school students the basic concepts of cellular and molecular biology, genomic science, and computer programming.

2 - Medical and Scientific Exploration is an online course designed to guide students through different laboratories or clinical departments within the Mount Sinai Health System through the real world application of scientific concepts.

3 - The Internship Placement Programs are programs designed to expose rising seniors to various careers in the scientific and medical field. **The Hospital Placement Program** gives students exposure to health careers while enhancing their basic science knowledge and research skills. **The Veterinary Sciences Program** is designed to expose students to the veterinary sciences in a biomedical research environment.

The DR MMEN is a program designed to promote career advancement in the medical field for underrepresented communities.

Eligible: All students who identify as an underrepresented minority (African American, Latino, Native American, or Alaskan American) **OR** meet low-income economic criteria.

For the DR MMEN program you must identify as an African American or Latino male and be a current junior.

Dates: July 7 – August 15

Location: Mostly virtual (Introduction to Bioinformatics & Medical and Scientific Exploration); In-person (All Internship Placement Programs)

“In 2025, we mark the 50th anniversary of the end of the Vietnam War, a conflict that left a profound impact on the United States and the world. As we reflect on this milestone, it is crucial to revisit the role of the U.S. Foreign Service during that era, which was instrumental in shaping the course of events and continues to influence U.S. diplomacy today. Drawing in part from The Foreign Service Journal’s 40th anniversary coverage of the end of the Vietnam war, critically assess what you believe to be the most significant effects of the Foreign Service's work during the Vietnam War on contemporary U.S. diplomacy. \$2,500 will be awarded to the writer of the winning essay, in addition to an all-expenses paid trip to the nation’s capital for the winner and his or her parents, and an all-expense paid educational voyage courtesy of Semester at Sea.”

Eligible: All students whose parents are not in Foreign Service

Application Deadline: March 1

Asian Pacific American Heritage Scholarship

“The Asian Pacific American (APA) Legacy Public Service Announcement (PSA) scholarship is a celebration of APA Heritage Month. The scholarship (\$250 top prize) is open to any high school or college student of APA descent in the United States. What does being APA mean to you? The intention of the Heritage Series’ APA Legacy PSA scholarship is to allow APAs to create fun and interesting 60-90 second video vignettes. The videos must convey what it means to you to be an APA. Why do you feel it's important to recognize and celebrate your cultural heritage? Videos can be about the customs or traditions you practice, the types of foods you eat, or what you do with your family and friends. They can be clever, silly and/or serious. It's totally up to you, however, the contestant must share a little bit about themselves too. You must use the #APALegacy2023 hashtag when posting.”

Eligible: All students with AAPI background

Working Papers: Some jobs, internships, and programs do require students 14-17 years old to obtain working papers (official name: employment certificates). The necessary application form may be obtained from Mr. Myles Sebastien (who can explain the procedure and answer any questions) in the Stuyvesant Guidance Office (Room 236) between 8:00am – 3:30pm.

If you are selected for or enroll in any of the above opportunities, please inform Mr. Blumm ASAP at: hblumm@stuy.edu

Whichever extra-curricular program, internship, or community service activity a student may participate in, they should be sure to ask their supervisor/coordinator to write a letter of appreciation before it concludes – it is sometimes very difficult to obtain this later on. And the more personal & detailed the letter, the better. A copy should then be submitted to your counselor.

Please feel free to contact Harvey Blumm at hblumm@stuy.edu with any questions or feedback on any items in this message, or with any suggestions or concerns you may have. **And always feel free to share any information about opportunities that may be of interest to our parents, teachers, or students.**
