

Stuyvesant Student Opportunity Bulletin #19L

January 17, 2025

Please note that in this “**Long**” version of the Student Opportunity Bulletin, **all** opportunities in each category are included.

For the list of only the *New* and *Deadline Approaching* opportunities in each category, you may click & open the “**Short**” version of the Student Opportunity document you received.

Updated: The TomorrowToday Experience Directory: A new interactive resource for students and parents!

We are excited to announce the launch of the Stuyvesant Experience Directory powered by TomorrowToday. This digital companion to the weekly Student Opportunities Bulletin empowers students to more easily explore, find, and engage with the many diverse opportunities that are available in a more interactive way.

How Should Students Use It?

Students can access the directory via our weekly digital bulletin or at the link [here](#). Simply browse through the curated listings, find experiences that interest you, and take the next steps to participate on the provider's website. The user-friendly interface makes it easy to filter and search for specific opportunities.

We encourage all students to make the most of TomorrowToday's Experience Directory. Dive in, explore, and discover your career journey: <https://stuyvesant.tomorrowtodayapp.com/>

This weekly bulletin informs students, parents, and staff about internships, academic programs, jobs, leadership & community service initiatives, and other student opportunities in a variety of fields. Please carefully note deadlines, age requirements, and other pre-requisites for participation.

For ease of use, these newsletters are organized by different categories, such as Academic Programs, Business Internships & Jobs, STEM Opportunities, Community Service, and so on.

These various opportunities utilize different formats. Some are in-person, some remote, and some will involve a hybrid arrangement. Check each program for their specific format and schedule. Students should consider applying to any that match their interests and talents.

Please note that in order to save space, many sections contain links to general lists of related opportunities- such as for Stem programs, Community Service, College Prep free programs, and more - be sure to click on any links that interest you.

Here are several programs of note in this week's bulletin from various sections; some have rapidly-approaching deadlines:

ACADEMICS: There are several new private college 'pre-college' course summer programs listed this week; many are costly but often do provide financial aid to eligible applicants.

BUSINESS: The **NYC Exploring** program provides a variety of after-school business/medical/law free sessions with real-world companies. Check out their calendar in this section – and they have a free resume/interview prep session with professionals from Bloomberg & JP Morgan Chase coming up on January 25th!

LEADERSHIP/GOVERNMENT: The **Manhattan District Attorney's office** offers a free Resume Workshop on February 21st – interested students should register ASAP. Current 10th, 11th, and 12th graders who are Manhattan residents may now apply for their paid **summer legal internship program**.

And the LAJF Foundation's **Camp Rising Sun** & the **Ethical Leadership Experience** are free/low-cost summer options for 15-16 year-olds that high school students from around the world – the 1st application deadline is **February 1st**

STEM: The **MIT Beaver Works** virtual '**Yes You Can**' program offers free classes in Robotics, Programming, AI, and more to current 9th and 10th grade students.

The **NYU/Tandon School of Engineering's ARISE PROGRAM** is just one of the many Engineering/tech-focused summer opportunities they offer.

Cooper Union welcomes applicants to its' **Summer STEM** program, as well as to their **Summer Art Intensive** – both offer some financial aid to eligible applicants.

And the **Human Oncology & Pathogenesis (HOPP)** summer program at Memorial Sloan Kettering Hospital in Manhattan is open to current juniors; the focus is on lower-income and under-represented students, but all may apply.

Questions, suggestions, and information about other opportunities are always welcome and appreciated, and may be sent to Internship/Opportunity Coordinator Harvey Blumm at: hblumm@stuy.edu - we will share your helpful information with the Stuy community!

Events of Interest to Students:

New: MoMath Exponents Event: Recent Math Majors - Ready to Share With You!

“Designed specifically for high school students interested in math and STEM fields, this unique opportunity allows prospective college students to ask questions directly to those who have recently navigated the university experience. Unlike more established mathematicians, these panelists bring very recent experiences to the table, providing fresh, relatable insights on topics like the application process, what you can do with a math degree, and what it's really like to be a math major in the 2020s. In a comfortable, casual setting, students will have the chance to learn from peers who understand the challenges they face. This diverse panel represents a variety of colleges from across the country, from liberal arts colleges to large public universities.”

Eligible: All students

Dates: Thursday, January 23 (6:30pm - 7:30pm)

Location: National Museum of Mathematics (225 Fifth Avenue)

Cost: Free

Link: <https://momath.org/readytoshare/>

Event Approaching: Columbia University Summer Pre-College Information Sessions with Student Ambassadors

“Attend an online information session to learn about Columbia University’s Summer Academic Enrichment Programs. Students enrolled in grades 8-12 in spring 2025 may apply and delve into academic interests through exploratory coursework and connect with the Columbia community through activities and events. **Speakers:** Student Panelists and Admissions Representatives.”

Eligible: All students

Dates: **January 22** (4 PM), February 6 (4 PM), February 18 (4 PM), and more

Location: Virtual

Cost: Free

Application Deadline: **Rolling Basis**

New: John Hopkins Summer Programs

“John Hopkins Engineering Innovation Pre-College Programs welcomes talented math and science students interested in engineering this summer. Programs include studying a variety of disciplines such as sustainable energy engineering, chemical, electrical, mechanical, materials science, and biomedical engineering. Online, in-person, and residential programs are offered. Join the program staff and other students to discuss the incredible on-hands labs and activities you will experience, details about the admissions process, and college credit information.”

1. General Pre-College Programs

John Hopkins University is offering several programs for high school students through which students can explore Applications of Chemistry in Medicine, Big Data and Advertising, Neuroscience and Human Behavior, Creative Writing, and more.

Eligible: All current students with a minimum 3.0 GPA

Dates: Various (late June - August)

Location: Virtual and in-person options available

Cost: TBD (additional \$85 application fee)

Application Deadline: **February 14 (Early Action), May 28 (Final Deadline)**

Links: <https://summer.jhu.edu/programs-courses/pre-college-programs/>

<https://summer.jhu.edu/admissions/pre-college/>

<https://summer.jhu.edu/admissions/apply/>

2. Explore Engineering Innovation (EEI)

“During the course, students complete activities in civil, chemical, electrical/computer, mechanical engineering, and materials science. By applying knowledge of math and science to labs and hands-on projects, the concepts learned in high school classrooms are linked to real-world practice. Additionally, students’ confidence grows as they attend college-level lectures, solve problems, test theories, and ultimately learn to think like engineers.”

Eligible: Current sophomores and juniors, and seniors (exceptional freshmen may be considered, but will have less priority)

Dates: June 30 - July 25 (In-person), June 30 – August 1 (Online), Various for hybrid

Location: Virtual, Hybrid, or In-person

Cost: Various (additional \$50 application fee, other fees applicable for residential students; financial aid available only for online/commuter students)

Application Deadline: **Rolling Basis until spots are full, May 2 (Session 1 Hybrid), & May 28 (Session 2 Hybrid)**

3. Sustainable Energy Engineering (SEE)

“How can we design and implement new sustainable energy technologies that are resilient and economical, and that may be incorporated into the existing power grid? To answer these questions, we need to take a deep look the ways we currently use energy so that we may find ways to reduce our use, and we must study the science and engineering concepts behind our current methods of energy production and distribution, as well as the impact of policy on our ability to make change. This course will introduce students to these topics, giving them the fundamental knowledge necessary to understand the challenges and opportunities in sustainable energy engineering, and to decide whether this is a field they want to pursue.”

Eligible: Current sophomores and juniors, and seniors (exceptional freshmen may be considered, but will have less priority)

Dates: June 30 – July 25

Location: JHU Homewood Campus in Baltimore

Cost: \$3,800 (additional \$50 application fee, other fees applicable for residential students; financial aid available only for online/commuter students)

Deadline Approaching: Summer Institute for the Gifted (SIG)

“Our unique STEAM+ curriculum focuses on applying creative thinking across multiple disciplines to solve real-world problems. Our curriculum spans all facets of STEAM and humanities. We encourage students to explore their interests while introducing them to new and intriguing topics. Students gain strong research and creative problem-solving skills vital to college and professional careers.”

Courses include Logic & Innovation, Global Politics Unveiled, Neuroscience, Quantum Mechanics, Technical Design with VEX Robotics, and more.

Eligible: All students

Dates: Summer (2–3 weeks)

Locations: Various campuses including University of Michigan, University of Texas at Austin, UCLA, and more

Application Deadlines: **January 28** (Regular Admissions - Round 1) & **March 25**

MIT Lincoln Laboratory (LL) Beaver Works Summer Institute Spring Class and Summer Program

“This is a dual program – spring term self-paced online classes, followed by an in-person or virtual summer program at MIT, which is selective. The four-week summer program teaches students programming & engineering skills through project-based, workshop-style courses. Students must complete self-paced online courses over the spring semester if they wish to be considered for the summer program. This summer, we’re offering **14 exciting, hands-on, project-based programs** designed to inspire and challenge high school students with a passion for STEM. From autonomous robotics to cybersecurity, and space exploration to machine learning, there’s something for everyone to discover. Courses: Autonomous Air Vehicle Racing (UAV)*, Autonomous RACECAR Grand Prix*, Autonomous Cognitive Assistant: Cog Works, Basic of ASICs, Cyber Operations, Embedded Security and Hardware Hacking, E-Textile and Wearable Technology*, GitHub, Medlytics, Microelectronics and Hardware Development, Quantum Software, Python, Remote Sensing for Disaster Response, Serious Games Design and Development with AI, Underwater Autonomous Vehicle Challenge (AUV)*, Unmanned Air System - Synthetic Aperture Radar* (** means the will be in-person in the summer; we do not provide housing*) Our programs provide students with the opportunity to collaborate with peers and instructors from around the world, solve real-world problems using cutting-edge technologies, and develop skills and experiences that prepare them for their future in STEM.

Eligible: Preference to current juniors, but all students may apply & may be accepted

Dates: February 3 - June 20 (Spring Online Courses) & July 7 – August 3 (Summer Program)

Location: Spring Courses are virtual; the summer program is Virtual and/or In-Person at MIT

Cost: Free for those with family incomes under \$150,000; otherwise, a fee TBD

Battelle Climate Challenge

“Your challenge is to research past and future impacts of climate-related hazards in your community, including drought, wildfire, flooding, and extreme heat, then develop a proposed action to help build a more resilient community. Your entry must

be original and include a title, a written explanation of your proposed climate action, and an image (max 3GB) of a “poster” that supports your climate action. The poster can be a digital design or a photo of a hand-made poster. Your climate action should explain at least one way your community can prevent, withstand, respond to, or recover from a climate-related event. Your entry should also address how you plan to make your solution a reality (ex. start an organization, a company or create/sell a product). The grand prize winner will present their poster at the [Innovations in Climate Resilience Conference](#) in Washington, D.C. on April 21, and receive a \$5,000 STEM grant for a U.S. nonprofit organization, public library, or public school of their choice.”

Narrative High School Writing Contest

“Using the prompt “What I Cannot Say, I’ll Say Here” as a springboard, we invite you to go to the places that are vulnerable, messy, authentic. To write about what confuses or shocks or angers you, to speak truth to power, to ask who you are and what you’re capable of, to talk of things you might not think you have the agency to change or fix. Are there stories or events you’ve been reluctant to address in order to protect others? Do you see something amiss in the greater world—something maybe a bit new or raw or unguarded that needs saying? Weave it into a poem, a story, an essay that speaks

volumes. Create the space, conjure the world, use your authentic voice to shine a lamp into the darkness.

Write a story or essay of no more than 600 words, or a poem of 10 to 50 lines, that exposes this theme or problem and proposes some kind of solution. The winning author will be presented with a \$500 award. The winning works will be published in *Narrative*, alongside many of today's great writers."

Narrative High School Writing Contest

“Using the prompt “What I Cannot Say, I’ll Say Here” as a springboard, we invite you to go to the places that are vulnerable, messy, authentic. To write about what confuses or shocks or angers you, to speak truth to power, to ask who you are and what you’re capable of, to talk of things you might not think you have the agency to change or fix. Are there stories or events you’ve been reluctant to address in order to protect others? Do you see something amiss in the greater world—something maybe a bit new or raw or unguarded that needs saying? Weave it into a poem, a story, an essay that speaks volumes. Create the space, conjure the world, use your authentic voice to shine a lamp into the darkness.

Write a story or essay of no more than 600 words, or a poem of 10 to 50 lines, that exposes this theme or problem and proposes some kind of solution. The winning author will be presented with a \$500 award. The winning works will be published in *Narrative*, alongside many of today’s great writers.”

Eligible: All students

Asian Pacific American Heritage Scholarship

“The Asian Pacific American (APA) Legacy Public Service Announcement (PSA) scholarship is a celebration of APA Heritage Month. The scholarship (\$250 top prize) is open to any high school or college student of APA descent in the United States. What does being APA mean to you? The intention of the Heritage Series’ APA Legacy PSA scholarship is to allow APAs to create fun and interesting 60-90 second video vignettes. The videos must convey what it means to you to be an APA. Why do you feel it's important to recognize and celebrate your cultural heritage? Videos can be about the customs or traditions you practice, the types of foods you eat, or what you do with your family and friends. They can be clever, silly and/or serious. It's totally up to you, however, the contestant must share a little bit about themselves too. You must use the #APALegacy2023 hashtag when posting.”

Eligible: All students with AAPI background

Working Papers: Some jobs, internships, and programs do require students 14-17 years old to obtain working papers (official name: employment certificates). The necessary application form may be obtained from Mr. Myles Sebastien (who can explain the procedure and answer any questions) in the Stuyvesant Guidance Office (Room 236) between 8:00am – 3:30pm.

If you are selected for or enroll in any of the above opportunities, please inform Mr. Blumm ASAP at: hblumm@stuy.edu

Whichever extra-curricular program, internship, or community service activity a student may participate in, they should be sure to ask their supervisor/coordinator to write a letter of appreciation before it concludes – it is sometimes very difficult to obtain this later on. And the more personal & detailed the letter, the better. A copy should then be submitted to your counselor.

Please feel free to contact Harvey Blumm at hblumm@stuy.edu with any questions or feedback on any items in this message, or with any suggestions or concerns you may have. **And always feel free to share any information about opportunities that may be of interest to our parents, teachers, or students.**
